ACCESSIBLE

Vario Changing Bed

An elegant wall-mounted changing bed that allows caregivers to lower the bench when helping a child or adult onto it / then raise it to an ergonomically correct working height. The built-in shock absorbers make the nursing bench effortless to fold up or down – a practical solution that easily folds away when not in use.

- ✓ **Ergonomic** for both the user and carer
- ✓ **Height Adjustable** 30cm–100cm from ground level using a hand control
- ✓ **Accessible** for mobility disabilities. Suitable for nursing schools, early child care centers, senior housing and institutions
- ✓ **Folds Away** quickly and easily using hydraulic assist when not in use
- ✓ **Two Sizes** 180cm and 190cm lengths

Changing Shower Bed

With all the elegance of the Space Saving Changing Bed, this durable water-proof bed supports carers that assist people with limited capacity in changing and personal care. Featuring additional elevated back adjustment, waterproof and non-slip elements, this bed is designed for frequent contact with water and soap products.

- ✓ **Comfortable** soft and flexible surface
- ✓ **Ergonomic** for both the user and carer
- ✓ **Height Adjustable** 30cm–100cm from ground level using hand control
- ✓ **Accessible** for mobility disabilities
- ✓ **Folds Away** quickly and easily using hydraulic assist when not in use
- ✓ **Two Sizes** 178cm and 210cm lengths
- ✓ **Waterproof** and non-slip features

MAXI2 – Nursing Table

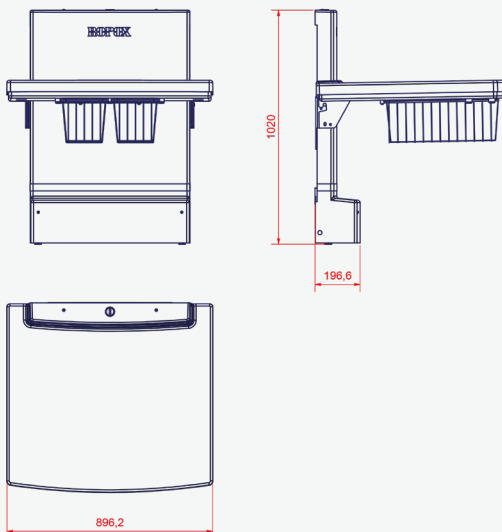

The MAXI model can be lowered down to 40cm from the ground allowing young children to climb onto the nursing table without assistance. This prevents staff from unnecessary lifting and the child can be nursed safely on the table.

- ✓ **Ergonomic** for both the user and carer – no lifting of children required
- ✓ **Height Adjustable** from as low as 40cm off the ground – making nursing table accessible to children without assistance
- ✓ **Safe** for both the user and carer – no crushing hazards, sharp edges or corners
- ✓ **Maintenance** is easy with simple mounting setup and cleaning
- ✓ **Maximum Weight** 75kg

MEDI2 – Nursing Table

The MEDI model is a smaller lifting unit than the MAXI and can be lowered down to 60cm from the ground. As with the MAXI model, this unit is designed with rounded edges for added safety and prevents staff from unnecessary lifting onto the table.

- ✓ **Ergonomic** for both the user and carer – no lifting of children required
- ✓ **Height Adjustable** from as low as 60cm off the ground – making this nursing table accessible to children without assistance
- ✓ **Safe** for both the user and carer – no crushing hazards, sharp edges or corners
- ✓ **Maintenance** is easy with simple mounting setup and cleaning
- ✓ **Maximum Weight** 75kg

Safety & Comfort

Working in an institution can be physically demanding for the staff where children need help, comfort, nursing and changing all day long.

This repetitive lifting can be hard on the body and staff need considered work conditions. This allows them take care of the children in a healthy work environment without unnecessary and heavy lifting.
