

# Wellbeing<sup>®</sup> Livia Lever Tapware

BALANCE OF STYLE, FUNCTION  
& FAMILIARITY

COMFORTABLE & EASY TO USE

HIGHLY VISIBLE INDICATORS

MORE INFO

## Inspired by User Comfort and Wellbeing

The Wellbeing® Livia Lever Tapware range has been designed specifically to suit independent living and residential Aged Care environments. The range has been developed in consultation with Aged Care providers, Design Consultants and Dementia Experts to deliver a harmonious blend of style, function and user comfort.

Motivated by our passion to help those with limited hand mobility, Wellbeing® Livia offers the functional advantages of comfort and ease of use. Without complex technology, it operates simply and reliably. The longer handle is easy to grip and manoeuvre for those who have motor skill and hand dexterity challenges. Highly visible colour indicators help those living with dementia and those who are visually impaired.
