

# Lever Action Sink Set with SP010 Spout

## HOS307

The functional design makes the tap perfect for applications in which ease of operation and control is paramount. Recognised for quality, simplicity and proven endurance, the lever tap is ideal for medical, surgical and laboratory use, as well as hygienic commercial food preparation. The simple lever action brings extra convenience for convalescent and retirement facilities and especially for those with arthritis.

### KEY FEATURES

- 1/4 turn contra-rotating 150mm lever handles
- Ceramic Disc
- Swivel spout
- Hands-free elbow activation for improved hygiene and reducing the risk of hand cross contamination
- Engineered for easy operation and control
