Enware Wellbeing™ Ceramic Disc Sink Set 65mm Lever with 220 mm spout

The Wellbeing™ tapware range brings Enware's years of experience in producing lever tapware to modern tapware design, addressing the timeless requirements for ease of use, purpose, longevity and up-to-date aesthetic appeal.

Ergonomic lever design allows use with a minimum of effort and manipulation to accurately set desired temperature and flow. A chrome plated base unit combined with a lever crafted from the latest polymers offers warm luxurious tactility, fashionable looks with bright indication.

Optimised spout lengths to avoid water flowing directly into waste to prevent aeration of bacteria.* All spouts are supplied with a swivel fixing hex insert and are available with 5 or 6 Star WELS rating.
